

Integrated solutions fully support **RFID for DoD**, including:

- Easy printing of RFID labels OR use of pre-encoded RFID tags.
- Automatic association of Case RFID tags to Pallet RFID tags with both print on-demand and pre-encoded tags.
- Full support for **UID** container labeling and inclusion in WAWF data upload (ASN).
- RFID embedded in Exterior Container Labels and Pallet Labels to reduce printing costs.
- Printing all Mil-Std 129 labels on all major brand printers.
- Printing Shipment Pack Report with structured listing of all UID data and RFID tags followed with a summary data section. Use to verify pallet stacking and for historical records.
- Easy upload of RFID data to WAWF. *No more typing RFID tags into WAWF screens!*
- Add stationary RFID reader to automatically associate cases to pallets during pallet build/wrap or truck loading for high volume process flows.

Pricing:

- Pre-Encoded Tag Software Bundle costs just **\$843**. Add pre-encoded **RFID tags for less than 40¢ each**.
- Print On-Demand Software Bundle costs just **\$1,538**. RFID printer purchased separately from your favorite supplier.
- Stationary RFID Reader capability is not included in bundles. Call for more information.
